

CLOUD BILLING MANAGER

Unigma Cloud Management Suite helps MSPs manage, optimize, and bill for public cloud infrastructure.

Unigma Cloud Billing Manager is one of the suite's core components, and it helps MSPs automate billing, improve efficiency, and capture more revenue.

SCALE YOUR BUSINESS WITH BILLING AUTOMATION

For MSPs that are running a successful, fast-paced business, every minute counts. Relying on manual processes will not work in the long term. Unigma Cloud Billing Manager helps MSPs and resellers optimize, reduce errors, and save time by automating billing for Amazon Web Services (AWS), Microsoft Azure, and Office365 products.

BECOME A CLOUD SERVICES PROVIDER TO YOUR CLIENTS

Cloud Billing Manager helps MSPs be more successful and get the most revenue out of reselling cloud services.

- ☛ Bill for Microsoft Azure, Office365, and AWS
- ☛ Support AWS Channel Resellers and Microsoft Direct CSPs

SAVE TIME AND MONEY BY REDUCING BILLING EFFORT

- ☛ Get rid of costly mistakes
- ☛ Automate your back-office operations
- ☛ Integrate with Kaseya, Autotask, and ConnectWise

CONTROL YOUR OWN DESTINY

We understand that margins for reselling cloud services are tight, and we are here to help. If you are a Microsoft Direct CSP, Unigma Cloud Billing Manager can suggest the Microsoft list price and make billing a breeze.

- ☛ Set up billing in 2 easy steps
- ☛ Bill your customers in batches
- ☛ Add customer line items and upcharges
- ☛ Get pricing recommendations

Don't get left behind!

According to MSPmentor, **over 60%** of MSPs see Office365 as a growth area.

AUTOMATE AND SAVE

Using a PSA to run your managed services practice is a great idea. That's why Unigma Cloud Billing Manager integrates with leading PSA platforms and helps MSPs get an immediate ROI.

- ☛ Integrate with Kaseya BMS, Autotask, and ConnectWise
- ☛ Push your invoices to your PSA automatically
- ☛ Save time and reduce errors

CLOUD BILLING MANAGER

☁ The Math behind the Savings

+ Average time spent billing 1 customer = 30 minutes

+ Average loaded cost of an admin employee = \$28 per hour

+ For an MSP with 50 customers – 50 x 14 = \$700 net savings \$450 per month

 Average cost of avoiding billing errors ... **Priceless!**
