# CLOUD MANAGEMENT SUITE

## Making Cloud Computing Simple

## FINALLY, A MULTI-CLOUD MANAGEMENT SOLUTION FOR MSPS AND ENTERPRISES

Unigma makes cloud management easy. The suite of products is a software-as-a-service platform that helps manage, analyze, optimize, and bill for the most popular cloud services – Amazon Web Services (AWS), Microsoft Azure, Google Cloud, and Office365.

## UNIGMA CLOUD MANAGEMENT SUITE INCLUDES:

Cloud Cost Optimizer

Cloud Billing Manager

Cloud Manager

## PAY LESS WITH CLOUD COST OPTIMIZER

Running a public cloud is challenging. There are many moving pieces and things can change quickly. Keeping track of costs is a daunting task. But it doesn't need to be.

## CLOUD COST OPTIMIZER

Cloud Cost Optimizer by Unigma is an easy-to-use product that helps lower costs and analyze current cloud spend.

- Get cost-saving recommendations
- Right size your environment
- Analyze your current and past cloud spend

> – Alex Ho, ComputerSupport.com

## BILLING MADE EASY WITH CLOUD BILLING MANAGER

For an MSP running a successful, fast-paced business, every minute counts. Relying on manual processes won't work for the long term. Unigma Cloud Billing Manager helps MSPs and resellers optimize, reduce errors, and save time by automating billing for AWS, Microsoft Azure, and Office365 products.

- Save time and money by reducing billing efforts
- Eliminate costly mistakes
- Automate your back-office operations
- Integrate with Kaseya, Autotask, and ConnectWise

## MONITOR, MANAGE AND AUTOMATE WITH CLOUD MANAGER

Managing multiple customers and departments in a single or multiple clouds can be tedious. Unigma Cloud Manager helps streamline operations, maintain consistent cloud performance, troubleshoot, and automate routine tasks.

- Automate common tasks
- Fire SmartTasks based on cloud metrics and events
- Monitor at scale, using policy
- Save time and money by shutting down unused resources

## UNIGMA CLOUD MANAGEMENT SUITE FEATURES

- Policy-driven performance monitoring
- Alerting via email or direct-to-ticket integration to Kaseya, Autotask, and ConnectWise
- Dashboarding for easy troubleshooting and correlation
- Scheduled task automation
- SmartTasks for event and condition-driven automation
- Single pane of glass for multi-customer and multi-cloud management

- Multi-tenant and white-label options available
- Cost savings recommendations to help drive down cloud costs
- Cost insights to help visualize and report on cloud spend
- Cloud billing automation for AWS and Microsoft CSP resellers
