

Kaseya BMS PSA Migrator

Painlessly transition from your first-generation legacy PSA solution

Let Go of Data Migration Worries

Data is at the heart of your business and that of your customers. Naturally, it's also of paramount concern when it comes to considering a migration to a next-generation business management solution.

Welcome, Kaseya BMS PSA Migrator! A service used to automate the migration of a customer's PSA data into Kaseya BMS, a feature-rich, next-generation business management solution built specifically to help MSPs spend more time selling and delivering services, and less time on non-revenue-generating tasks like billing and project management.

The functionality of BMS coupled with the simplicity of BMS PSA Migrator mitigates the risk of migration while increasing the long-term benefits for you and your customers.

Benefits of the Kaseya BMS PSA Migrator

Detailed Project Plan: Receive a detailed project plan with four specific milestones managed by a Kaseya expert consultant:

1. Discovery
2. Migration
3. Implementation
4. Testing/Training/Completion

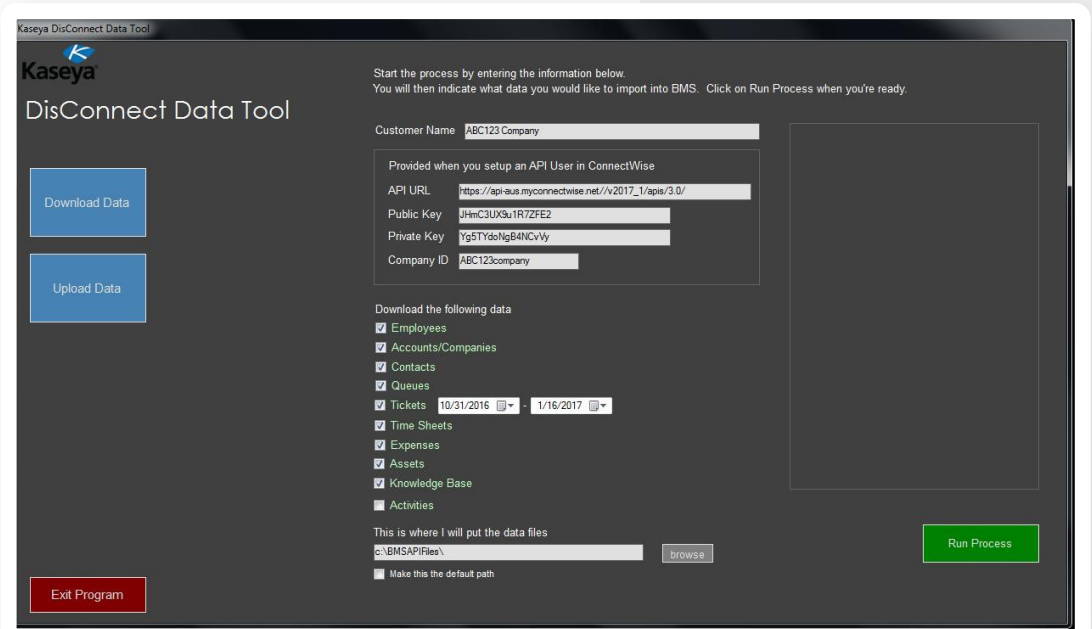

Touchless Process: The Kaseya Professional Services Team manages the entire process from start to finish so your MSP can realize the functionality and cost savings of a next-generation PSA without operational distractions.

Seamless Automation:

Migrate data from your current PSA to Kaseya BMS in 5 days (or less)!

Meet the Migrator Process

The migrator consists of two modules:

A Process as Easy as 1-2-3

1. Obtain access to your customer's current PSA API and export its data
2. Map data fields
3. Post the data to the BMS API
