KASEYA COMPLIANCE MANAGER: COMPLIANCE PROCESS AUTOMATION FOR GDPR

Kaseya Compliance Manager extends VSA's capabilities to audit, document, and achieve GDPR compliance.

GDPR COMPLIANCE MADE EASY

GDPR compliance doesn't have to be complex. Kaseya Compliance Manager is like having a compliance assistant on your staff who **works 24x7**. Kaseya Compliance Manager walks you through a set of easy to understand questions, automatically scans to detect personal data, and creates all of the documentation and reports you need to demonstrate compliance.

BUILT INTO VSA

Kaseya Compliance Manager is built into VSA, allowing you to leverage your current investment and expand its capabilities to audit and document GDPR compliance from a single pane of glass that your team is already familiar with.

GDPR-APPROVED REPORTS

Kaseya Compliance Manager automatically formats the data it collects through automated scans, auditor checklists, and privacy questionnaires into GDPR-approved reports including Data Protection Impact Assessment (DPIA) and GDPR Evidence of Compliance.

ACHIEVE COMPLIANCE AND AVOID GDPR FINES

GDPR has strict fines for non-compliance, up to **4% of global revenue or €20 million**, whichever is larger. Kaseya Compliance Manager takes the complexity out of GDPR and enables you to demonstrate ongoing compliance.

AUTOMATED GDPR ASSESSMENTS

Scan your network and answer a set of pre-configured questions to determine if GDPR requirements are being met.

RISK-BASED REMEDIATION

Follow a simple, prioritized set of instructions to bring your organization into compliance.

DEMONSTRABLE COMPLIANCE

Automate the generation of GDPR-approved documentation and reports to provide evidence of compliance.
