

Accelerate your hardware and recurring services sales with an all-in-one quoting, selling and automated procurement solution that supercharges your profits.

Kaseya Quote Manager simplifies quoting and hardware procurement, reducing hours of work to just minutes. It maximizes profits with automated procurement and a single view across multiple suppliers to identify solutions that match your customers' needs, budgets and timelines.

EASY TO SELL

- » Tired of the time-consuming quoting process? Kaseya Quote Manager lets you create professional and dynamic quotes with electronic acceptance in minutes, not hours, including setting up the Opportunity in Autotask.
- » Reduce rework and quote revisions with an easy-to-use UI, real-time pricing and stock availability across multiple suppliers.
- » MarginGuard maximizes profits and automatically procures products based on price and availability, improving transaction reliability.

EASY TO BUY

- » Buying IT solutions is confusing and stressful for small- and medium-sized business leaders. Kaseya Quote Manager makes it easy with HTML proposals that are responsive on any device, with rich multimedia that includes images, GIFs and even embedded video.
- » Kaseya Quote Manager features a branded eCommerce storefront to enable your customers to buy approved products at any time.
- » Avoid quote-to-invoice price shock with proposals that always show the up-to-date price. This way, the price your customers see during quote acceptance is the price you will pay to your supplier.

BUILDING A SOLID HARDWARE FOUNDATION

- » Small- and medium-sized businesses spend \$105 billion on IT equipment annually, but only 12% of this flows through MSPs, with the rest going to consumer retailers. Consumer-grade hardware from these retailers is less secure and results in 50% more reactive tickets. Kaseya Quote Manager promotes 100% adoption of business-grade hardware, the foundation of profitable recurring services.
- » Boost service reliability and customer satisfaction with the most powerful hardware from leading vendors and suppliers, integrated seamlessly into Kaseya Quote Manager.
- » Unleash the recurring service potential by creating a remarkable daily hardware experience that leaves a lasting impression on customers.

SEAMLESSLY INTEGRATED

- » Kaseya Quote Manager is the ideal companion to Autotask, enabling you to effortlessly transition an Autotask Opportunity to a Quote, and an accepted quote to an Autotask contract, project or ticket.
- » Kaseya Quote Manager has partnered with leading software, hardware suppliers and manufacturers, such as Ingram Micro, TD Synnex and Lenovo, to enable seamless, no-touch procurement.
