

eCommerce Storefront

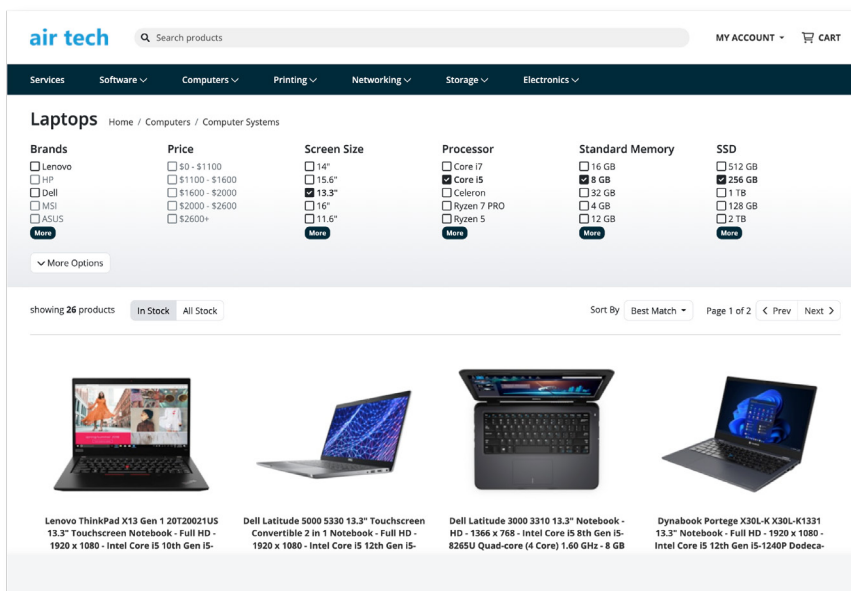

Sell how your customers want to buy with a modern, easy-to-use online store.

Enable clients to find and purchase approved solutions from you online, 24/7 at their convenience:

- Eliminate the time-consuming back-and-forth of quote creation as customers can now browse, purchase and pay for products with a familiar eCommerce experience.
- Increase sales by allowing your customers to easily browse your product offerings.
- Reduce friction by accepting credit card payments for Kaseya Quote Manager purchases.
- Quickly get products into the hands of your customers with automated procurement with supported suppliers.

eCommerce Storefront details:

- Easily search and filter by specification, so your customers can find exactly what they want.
- Define your margin percentage, and Kaseya Quote Manager will always show the latest price to your customer using live data feeds to calculate cost plus margin.
- Highlight high-margin or preferred technology by marking them as recommended to boost their presence in search and when browsing.
- Curate a selection of products to display in your store or allow customers to search and browse all the products available from your supplier.
- Display rich detail and high-resolution product images from GFK.

At-a-Glance Benefits

- Sell while you sleep with a 24/7 online store.
- Protect your margins with automated cost plus margin settings.
- Encourage upsell by showing recommended products and accessories.
- Curate your Storefront with just the products you want to sell.

Getting Started

Visit the [Kaseya Knowledge Base](#) for step-by-step instructions on how to set up your Storefront.

For partners requiring assistance with feature setup, please contact our support team at support@kaseya.com.
